- Technical Knowledge: SQL, MS Office, C/C++, UNIX
- Bachelor of Computer Application (GASC, Erode) & M.B.A – Finance (IBS, Hyderabad)
- Main electives: Security Analysis, Investment Banking & Financial Services, Risk & Insurance, Banking Service Operations and International Finance & Trade

### PROFESSIONAL EXPERIENCE

#### **Temenos India Private Limited, Chennai**

The company headquartered in Geneva is the market leading provider of banking software systems to retail, corporate, universal, private, Islamic and microfinance & community banks.

Designation : **Business Consultant**

Role : **Business Analyst**

Duration : ~ **3 years** (March 2010 to Dec 2012)

Module : T24 Wealth Management, Securities, Derivatives, Mutual Funds, T24 Limits, T24 Collateral

#### **Responsibilities:**

- Relate T24 Product functionalities to business functionalities to assist in the setting up of the Model and execute test plans and scripts based on functional specifications.
- Write specifications for Model Bank development and ensure that Technical Consultants have a clear understanding of the specifications.
- Prepare/assist in preparation of documentation on Model Bank set up and functionalities.
- Liaise with PRE SALES Team to obtain feedback on the Model and implement agreed changes.
- Liaise with the TEMENOS maintenance groups to ensure that product problems identified are understood and resolved.
- Produce scripts for testing the Model Bank and report issues to Maintenance.
- Perform system testing based on accepted TEMENOS standards.
- Contribute in knowledge transfer on Model Bank.

### INTERNATIONAL / CROSS CULTURAL EXPERIENCE

Country : Temenos UK, Fenchurch Street, London, United Kingdom

Duration : 2 weeks

- Played an active role in co-ordinating the Neo Development team and Testing team in resolving Critical Defects in the final phase of development.
- Performed various Testing activities and assisted the Neo team in understanding the existing business and browser functionality.

## **PROJECTS UNDERTAKEN**

### **1. Project – NEO (London) (Flash based UI of T24)**

#### **Responsibilities:**

- Being a part of Business Analysis by identifying high usage screens and complex screens for UX design activities and Product development.
- Provide support by clarifying various bank roles and business areas and navigation in system through detailed workshops and presentations.
- Documenting the process and assist the development team in order to minimize the defects.
- Providing targeted advice to the development team on reuse of existing concepts.
- Configuration and testing of the functionalities of various home pages such as Private Back Officer, Private Credit Officer and Settlement Analyst.

### **2. Design and Development of Role based Home pages for Private Banking Operations**

The requirement is for a dedicated Role Based Home page for the Banker. The user can look and access all the process through a single window. (Example: A Private Back Office user would have just a Private banking home page once logged into system with all enquiries, reports, dashboards, tabbed screens, process screens, graphs and icons and no other banking vertical products). This would restrict the banker from accessing other banking vertical products. Also bringing in more clarity and a user friendly way for processing transactions, where a banker could access all the needs from a single window instead of scrolling through the entire menu options of T24.

#### **Responsibilities:**

- Analysis of Private Banking Front, Middle and Back officer roles like Relationship Manager, Compliance Officer, Settlement Analyst and Mutual Fund FMC Home Page
- Documentation of functionalities performed by the role based home pages
- Design and development by creating user oriented interface
- Designed the Process Workflow for Private Client On boarding
- Build Business Test Cases covering all given scenarios. And run the test cases and solve any issues and bugs raised after testing
- Use Quick Test Professional for automated testing and capture screen shots
- Preparation of T24 User Guide Portal for the clients

### **3. Strategic Initiatives and Enhancements**

The Enhancements involve Core development and the client specific business requirements. It helps the clients to be in line with the latest developments in relation to Banking and Financial services. The role provides an opportunity to understand the SDLC and STLC process in detail. The exposure to these projects varies between 3 months and 2 years.

- Dynamic Modelling & Stock Borrow Lending – Core Development
- Markets in Financial Instruments Directive (MiFID) Risk Profiling – Core Development
- Neo (UI) – Model Bank Enhancement
- Process Work flow of Private Client On boarding – Model Bank Enhancement
- Locking client Reporting – Bank of Butterfield (BoB)
- Portfolio Grouping & Group types and Rebalancing a Grouped Portfolio – Lloyds Bank and BoB
- Entitlement Commission Accounting - Bank of Butterfield
- Segregation Income – Bank of Butterfield
- Credit Linked Notes – Al Khaliji Bank

**Skills used:** Manual testing, Acceptance Testing (Alpha type), Test result Documentation, Automation Testing using QTP, Preparing Test scripts, User Documentation

### **EDUCATIONAL CREDENTIALS**

- MBA(2009) from ICFAI Business School, Hyderabad with Finance as major
- B.C.A(2007) from Gobi Arts & Science College, Tamil nadu with 68% (Bharathiar University)
- HSC 78% (TN Board 2004); SSLC 74% (Matriculation Board – 2001)

### **HOBBIES AND INTERESTS**

Reading non fictional books and magazines, Watching science channels, Playing Indoor games and Constructive Web browsing
